

SELECTBUSINESS

SelectBusiness, part of our RDC Select™ suite of products, allows financial institutions to deliver world-class RDC services to their business clients who use Mac or Windows operating systems. SelectBusiness can improve customer loyalty, strengthen existing relationships, attract new business and expand market share all while reducing operational costs and increasing profitability.

SelectBusiness allows a customer to utilize a small desktop check scanner to transform their check deposits into digital images, validate their authenticity and forward them electronically to their financial institution for deposit without a single paper check ever leaving their office. SelectBusiness eliminates trips to the bank, waiting in line, and provides faster access to funds, saving the client both time and money. With SelectBusiness you get the functionality of five modules in one; scan, balance, transmit, archive, and research. Other unique features of SelectBusiness include:

- ◆ **Multiple Operating System Capability** - works on both Windows and Mac operating systems
- ◆ **Item Replication Detection** - detects if a single item has been deposited multiple times
- ◆ **Image Quality Analysis and Usability Tests** - help identify if an image meets certain requirements for clearing
- ◆ **MICR Detection** - a leading indicator of a fraudulent check is the lack of MICR (Magnetic Ink Character Recognition) ink
- ◆ **Field Permission Capabilities** - prevents the end-user from editing or entering the information contained on a check's MICR line
- ◆ **Multi-Level and Multi-User Security Levels** - allows merchants to assign roles and access rights to scan, review and transmit deposits
- ◆ **Audit Trail Logging** - tracks every action performed on the system
- ◆ **Reporting Capabilities** - view and monitor all of an organization's RDC activities
- ◆ **Help Desk Support** - Available 24 hours a day, seven days a week
- ◆ **Virtual Endorsement** - electronically imprints endorsement and "Electronically Deposited" on each check
- ◆ **Customizable** - ability to be modified to user's individual needs
- ◆ **Integration and Compatibility** - Integrates with existing core processors using an X9.37 file format certified by the Federal Reserve Bank for electronic check presentation
- ◆ **Export Capabilities** - export data to PDF and Microsoft Excel file formats

RDC is not just for PCs™
The industry's premier
Mac platform for RDC
