Catch21 Integrates Mobile Check Deposit Service into its Item Processing with Cachet Financial Solutions

MINNEAPOLIS, Minn. – Catch21, Inc., an industry leader in outsourced item processing solutions and item processing consulting, recently announced that it has partnered with leading provider of remote deposit capture (RDC) solutions, Cachet Financial Solutions, to offer Select Mobile™, Cachet's mobile remote deposit capture application.

"Building a partnership with Catch21 is a great fit for both companies," said Jeffrey Mack, President and CEO of Cachet Financial Solutions. "We are excited to be working with such an experienced company, and we believe our Select Mobile services will be a valuable addition to their current product offerings."

The foundation of Cachet's mobile deposit application is convenience and simplicity for the consumer. Cachet's Select Mobile™ application allows account holders to initiate mobile-deposit sessions on their smartphone or tablet with a two megapixel camera. Making a deposit is as easy as keying in the deposit amount, snapping photos of the front and back of checks, and sending it to the financial institution. Before transmitting the images, Select Mobile formats the images and corrects any distortions and confirms that the images meet Check 21 and mobile image-quality standards. All transactions are transmitted with multiple layers of security and, if necessary, can be traced back to registered smartphones in order to combat fraud. Cachet's complete solution, which includes account management, sales and marketing assistance and 24/7 customer service, provides financial institutions the ability to quickly and efficiently deploy the product to the end user.

"Catch21 prides itself on being a leader in check processing technology, and our partnership with Cachet is a great leap forward," said Kelly Ingram, President of Catch21. "Cachet offers our clients a professional team dedicated to meeting the mobile application needs of our clients, and through this partnership we are able to provide clients with a new and innovative solution for depositing checks."

About Cachet Financial Solutions

Cachet Financial Solutions is a leading provider of remote deposit capture (RDC) solutions for financial institutions and their customers. RDC Select™, our fully integrated, customized solution, is a unique platform that eliminates the need for financial institutions to build and manage their own RDC business. Cachet's web-based business solution (available for both Mac & PC) along with our mobile application (available on iPhones, BlackBerrys, Androids and tablets) provide financial institutions greater freedom and flexibility when providing RDC to their customers. Cachet's sophisticated marketing strategy and professional sales training program ensures our customers are successful with their RDC initiatives. Let us help you *Unleash the power of RDC!*™ For more information call 877.318.4449 or visit www.cachetfinancial.com.
